VIVOTEK
A Delta Group Company

Release Note

Product Name:	< FD9367-EHTV-V2 >
Release Version:	< 1.2204.33.03b >
Date:	< 2025/12/18 >
Product Type	☒ Camera ☐ NVR ☐ Software

New Feature:

- Support new flash

Changed Feature:

- Update stunnel to 5.69-1
- Update OpenSSL to 3.0.16
- Update openssh to 9.8p1

Bugs Fixed:

- N/A

Relevant module and package information:

- Web API version 0322c.
- VADP version 1.5.1.1.
- Genetec Protocol version v2.2.5.2.
- Deep Learning VCA PKG Version 7.10.3.4-3d
- Trend Micro pkg version 1.3e.a1.9.1.
- Stratocast version 1.3e.a1.6.0
- Onvif version 22.06

Known Issue:

- N/A

Limitation:

- N/A

Important Notice:

- N/A

Release Note

Release Version: <1.2204.33.02a>
Date: <2024/10/04>

New Feature:

- N/A

Changed Feature:

- N/A

Bugs Fixed:

- Fixed the bug that motion detection doesn't work sometimes after uploading the backup file.
- Fixed the issue where the camera was unable to send the RTSP stream to the QNAP server.
- Fixed an issue when the camera sets the codec to H.265, it cannot get any streams from ONVIF clients/devices.
- Fixed the issue where the camera probabilistic fails to display an image after reboot.
- Fixed the issue where sending the audio mute command to the camera causes RTSP to fail when accessed via VLC.
- Fixed the issue where the camera intermittently fails to obtain the Alias IP 169.254.X.X after reboot.
- Fixed the issue where changing camera parameters using CGI could intermittently cause the camera to not respond or return an HTTP 0.9 response.
- Fixed the issue where the ROI changed after the camera reboot.

Relevant Module and Package Information:

- Web API version 0322c.
- VADP version 1.5.1.1.
- Genetec Protocol version v2.2.5.2.
- Deep Learning VCA PKG Version 7.10.3.4-3d
- Trend Micro pkg version 1.3e.a1.9.1.
- Stratocast version 1.3e.a1.6.0
- Onvif version 22.06

Known Issue:

- N/A

Limitation:

- N/A

Release Note

Important Notice:

- N/A

Release Version: <1.2204.33.01d>
Date: <2023/8/7>
New Feature:

- Support for account block to deny consecutive invalid access during a configurable time period on the user account page.
- Support for audit log related to security events on the system page.
- Support for session timeout to protect further access by initiating a session lock after a configurable time period of inactivity on the miscellaneous page.
- Support for configurable password strength.
- Support for display a system use notification message before authentication.
- Support Https certificate CSR and private key upload method. (Web API 0320a)
- Support MPEG-2 AAC-LC audio type. (Web API 0320b)
- Support NTP server redundancy. (Web API 0320a)
- Added support for SRTP on Genetec Security Center.
- Added support Genetec Certificate Management. (Genetec SC#5.11 or above)

Changed Feature:

- Upgrade SMART SD and add support for Micron i400 series MicroSD card.
- Support IEEE802.1x with TLS v1.2 and deprecation of TLS v1.0/v1.1.
- Support MPEG-2 AAC-LC with Genetec.
- Removed support Safe100.net DDNS server. (Web API 0320a)
- Removed support express link. (Web API 0320a)

Bugs Fixed:

- Improved compatibility of Aimetis Symphony back-end system.
- Corrected rare occasional no effect for Smart Codec.
- Fixed CVE-2022-0778, An infinite Loop Bug in OpenSSL
- Fixed cannot send motion events to Genetec after a period of time.
- Fixed Security Center authorization fails when the network is unstable.
- Fixed devices stopped sending Genetec motion events after an SD card error.
- Fixed a potential motion area issue when ROI home is set to 0 under ePTZ.
- Fixed the VCA Package function abnormality to cause the VAST 2 cannot to perform playback.

- Fixed the camera doesn't reply when using POST to set time or audio codec.
- Fixed the ROI changes after the camera reboot.

Relevant module and package information:

- Web API version 0322c.
- VADP version 1.5.1.1.
- Genetec Protocol version v2.2.5.2.
- Deep Learning VCA PKG Version 7.2.3.7-3d
- Trend Micro pkg version 1.xx.a1.9.1.
- Stratocast version 1.3e.a1.6.0
- Onvif version 22.06

Known Issue:

- N/A

Limitation:

- N/A

Important Notice:

- Not support Safe100.net DDNS server. (Web API 0320a)
- Not support express link. (Web API 0320a)

Release Version: <1.2103.33.02a>
Date: <2022/7/19>
New Feature:

- N/A

Changed Feature:

- Enhanced the EIS stability.

Bugs Fixed:

- N/A

Relevant Module and Package Information:

- Web API Version 0319a

- VADP Version 1.5.1.0
- Genetec Protocol Version 2.2.1.0
- Deep Learning VCA PKG Version 6.17.4.1.3d
- Trend Micro PKG Version 1.3d.a1.9.1
- Stratocast PKG Version 1.3e.a1.6.0
- ONVIF Version 20.12

Release Version: <1.2103.33.01d>
Date: <2022/3/14>
New Feature:

- Support pixel calculator on the image configuration page.

Changed Feature:

- Upgrade ONVIF version to 20.12.
- Upgrade Stratocast version to 1.3e.a1.5.3.
- Upgrade Web API version to 0317c.
- Upgrade Deep Learning VCA Package version to 6.17.
- Upgrade Genetec version to 2.2.1.0.
- Upgrade VADP version to 1.5.1.0.
- Change video codec wording from JPEG to MJPEG.
- Change the self-signed certificate validity default period from 825 to 397 days.
- Enhanced the Day/Night sensitivity wording.
- Support new logo and theme color.
- Change Light sensor sensitivity from low/normal/high to slider type 1~100.

Bugs Fixed:

- Fixed the RTSP fail and recorded loss when rotating Live View pages on local.
- Fixed the time zone Sydney cannot set DST.
- Fixed an issue when adding the H.265 streaming into third-party software, the image can not show completely.
- Fixed the time zone of Santiago.
- Enhance the password verification process.
- Improve cyclic mechanism.
- Fixed the recording of SD card can not delete even if enable the auto clean up function.
- Enhanced the AAC audio mechanism.

- Fixed the firmware upgrade failed by a third-party device through the ONVIF protocol.
- Fixed ROI will change when changing to night mode.
- Fixed an issue when setup on 1 fps and there is moving near in front of the camera, the fps will over 10 fps.
- Fixed the camera defocus after a period of time.
- Fixed the auto focus fail after day/night change.
- Enhanced EIS mechanism.
- Fixed the event with night motion still keeps triggering when camera is back to day mode.
- Fixed the VLC will stuck or show the broken image when playing RTSP streaming.
- Fixed the live image is not stable.

Release Version: <1.2003.33.01g>
Date: <2021/7/8>
New Feature:

- First release.

Changed Feature:

- N/A

Bugs Fixed:

- N/A
