

VIVOTEK

A Delta Group Company

VORTEX

AI-Powered Cloud Surveillance Platform

Think Search Powered by Gen AI

Locate critical footage faster using nature language and get instant, accurate results

Automation Event Trigger

Create rule-based automation for events to streamline surveillance and faster response

Cloud Archive & Share Clips

Securely store important footage in the cloud and share clips instantly from anywhere

Proactive Support & Maintenance

Remote troubleshooting minimizes downtime and boosts reliability

Centralized Security Management

Unlimited site and user management for seamless surveillance. Monitor multiple locations with secure, centralized access and remote troubleshooting —scalable, easy to use, and accessible from any device.

Fully Automated Surveillance: Share, Store & Secure

Video sharing

Instantly share critical footage with stakeholders from anywhere, anytime.

Cloud archive

Seamlessly backup and store surveillance data in secure cloud storage.

24/7 Auto updating

Stay protected with automatic firmware OTA and security signature updates.

AI Hub – Your New AI-Powered Surveillance Experience

Think Search with Nature Language

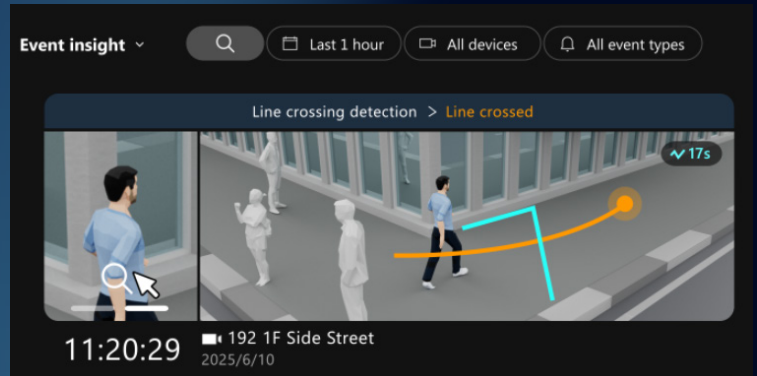

Type what you're thinking and find events fast with Think Search without limitation, and enjoy the cloud benefit to archive critical evidence on the cloud, keep data protected, searchable, and ready when it counts.

Hyperlink to Playback Rapidly

Get actionable alerts and the best shots from Event Insight — find all related appearances instantly with just one click using Re-search. And store critical clips in Case Vault to create clear investigation timelines and reports.

Search without boundaries

Re-search with best shot

PPE VIOLATIONS?

AI Catches Them Before You Have To

Protect your team and pass audits without lifting a finger

Safety First

- **24/7 AI-Powered Violation Alerts:** Eliminate manual checks and catch safety risks in real time.

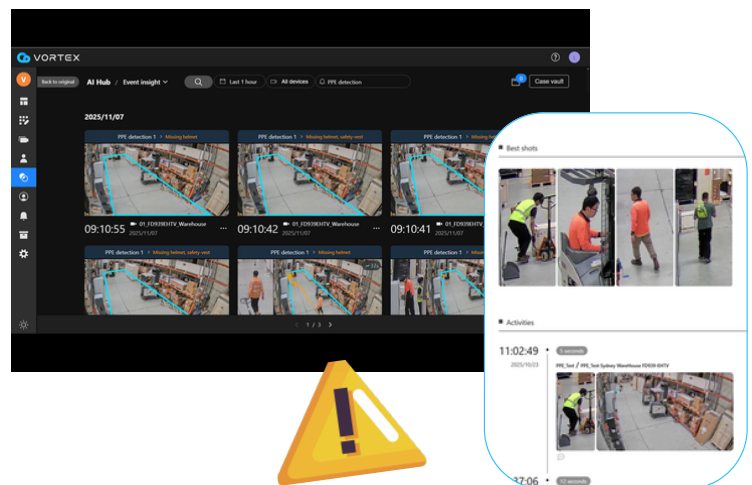

Security Matters

- **Violation Logs with Visual Proof:** Best shots, logs, and timestamped records for every incident help you pass audits and protect your workforce.
- **Cloud Rule Engine & Compliance Automation:** Set your PPE rules once and enforce them across all sites—automatically.

Emergency Ready

- Promote a **culture of safety** by encouraging awareness across the workplace
- Enable real-time alerts and **evacuation instructions** through **VIVIOTEK network speakers integration**
